* Half-year to 30th June. † The expenditure from Loans has been classified in this table under the headings made use of in the Schedules to the various Loan Acts, this being the method adopted by the Treasury. Information as to the total amount *actually* spent under some headings of Expenditure is consequently not obtainable, certain items being included under the indefinite heading "Development of Goldfields and Mineral Resources." "Electric Telegraphs," and "Water Supply and Sewerage" are probably most affected by this classification.

No. 11.—*GENERAL IMPORTS into the State of Western Australia during the Year 1904.*

Duties on British and Foreign Imports are collected under the provisions of the Commonwealth "Customs Tariff Act, 1902" (Edwd. VII., No. 14). In cases where the duties under the Special W.A. Tariff prove higher than those imposed by the Commonwealth on the like goods, then such higher duties are collected.

Duties on goods of Commonwealth origin passing into Western Australia are collected under the provisions of "The Tariff Act, 1893" (57 Vict., No. 11); "The Customs Duties Acts of 1895 and 1896" (59 Vict., No. 8, and 60 Vict., No. 13); "The Customs Amendment Act, 1898" (62 Vict., No. 5), and "An Act to Repeal Duties on Live Stock and Frozen Meats, 1900" (64 Vict., No. 4).

Note A.—The duties imposed under the Special W.A. Tariff were reduced by 20 per cent. up to, and 40 per cent. on the 8th October, 1903, and 60 per cent. on and after the 8th October, 1904 (C. of A. C. Act, Sec. 95).

B.—On British and Foreign Imports 10 per cent. has been added to the fair market value of the goods at port of shipment.

C.—The "Quantities" columns are left blank in all cases where the quantities declared are packages of an irregular or unrecognised size, and consequently do not indicate the number, capacity, or weight of articles imported.

* It will be observed that under the headings provided in this Table the areas for which Returns are furnished under "The Industrial Statistics Act, 1897," fall far short of the areas under corresponding headings as disclosed by the Lands Department's Returns of Alienated and Leased Land, and the balance between the two sets of figures referred to has therefore in each case been inserted with a view to adjust such differences.

† The reason why Returns relative to certain alienated and leased land are not obtained under the Industrial Statistics Act is mainly to be found in the fact that it has proved impracticable for the Statistical Collectors to enforce the provisions of the Act in connection with land which remains *entirely unimproved or unstocked*, and also in a lesser degree in the fact that small holdings under one acre in extent are exempted under the provisions of the Act from supplying Returns. The Statistical Returns are, however, collected from all lands over one acre in extent on which improvements have been effected, and upon which Agricultural or Pastoral pursuits are carried on, and, therefore, comprise all lands the obtaining of Returns from which would serve any practical purpose.

* Included under heading "Orchards.'

† The apparent falling-off in 1896-97, as regards the heading "Orchards," is to some extent explained by the fact that the acreages now separately specified under "Onions," "Other Root Crops," "Market Gardens," etc., were in previous years all included under the one heading.

‡ *The acreages under "Vines and Fruit Trees" in 1896-97 and subsequent years have been compiled on the basis of the actual number of vines and fruit trees planted according to a standard suggested by the Department of Agriculture, which allows 600 vines or 100 fruit trees to the acre; a comparison between the figures of these years and those of previous years is, therefore, valueless.*

‖ Includes 27½ acres *miscellaneous crops.*

Part VII.—MINERAL STATISTICS AND WATER CONSERVATION.

No. 16.—*Ore and Minerals, other than Gold, produced in Western Australia, as reported to the Mines Department during 1904 and previous years.*

Note.—As the collection of statistics of minerals, other than gold, was only commenced by the Mines Department in 1899, the mineral production previous to that year has been taken from the Customs Records. *See* Table 18.

* Children under the age of seven years are not criminally responsible; those who have attained that age, but are still under fourteen, are only criminally responsible if it is proved that at the time of the offence they were capable of knowing that they ought to have acted otherwise. In the above table charges have been included concerning children under 7 and over 14. The total of 346 includes, as will be seen, 72 neglected children.

* Exclusive of cost of administration. † Up to and including 1895 the numbers given are those of the "Assisted" or State-aided Denominational Schools. By "The Assisted Schools Abolition Act, 1895," all grants-in-aid to these were abolished from the 31st December of that year. Thereafter these schools ranked as "Private" schools, as distinguished from "Government" schools. The figures for 1896 and onwards include all private schools, secondary as well as primary, though one of the former (the Perth High School) is subsidised by the State. The average attendance, and consequently the percentage of attendance to enrolment, at these schools from 1896 is partly estimated, some of the returns forwarded being obviously incorrect. ‡ Not ascertained previous to 1897. § From and including 1897 the percentage of attendance to enrolment has been calculated on the basis of "average attendance" to "average enrolment." ¶ Including one undenominational school, particulars of which are not included in Table No. 6, pages 8 and 9.

* Bursaries of the value of Ten pounds have been offered to the girls attending the Elementary Schools for several years past. In 1895 they were extended to the Boys also.

† The examination being similar to that laid down for the High School Scholarships, one of which happened to be vacant, this Scholarship was, in place of the bursary, offered to, and accepted by, the boy who had passed; no bursary was, therefore, actually given.

‡ In 1899, one boy and one girl obtaining equal marks, the prize was divided between them. In the above table each has been credited with winning a bursary.

§ In 1899, and subsequent years, the bursaries were for boys and girls without distinction of sex.

|| No special number offered.

* Compiled from returns supplied by the various Local Governing bodies, and from statements published in the *Government Gazette*.

† NOTE.—Owing to an alteration in the date of the financial year from the 31st of December to the 30th June having been made in the "Roads Act" of 1902, no return relating to Road Districts appeared in the 1903 Statistical Register. In this issue the Return therefore covers a period of 18 months, viz., from the 1st January, 1903, to the 30th of June, 1904. Subsequent issues will contain Returns relating to the financial year ended the 30th of June.

* On the 28th October, 1879, the town of Northampton was declared to be a Municipality. No advantage, however, having been taken of the Proclamation, the name of the Municipality has been excluded from the present Returns. On the 23rd of February, 1893, the town of Gingin was declared a Municipality, which, however, was dissolved by Act of Parliament, dated 16th of January, 1904. (No. 3 of 1904) † Supplied by Lands Department. *a* Information not supplied. *b* Constituted a Municipality by "The Municipal Institutions Act, 1871" (34 Vict., No. 6). *c* Population as per Census on 31st March, 1901. *d* Not proclaimed a Municipality at date of Census. *e* Exclusive of Broome, Collie, Kookynie, Paddington, North Perth, and South Perth, which were not proclaimed Municipalities at date of the Census. *f* Amalgamated on 23rd October, 1903. *g* Not working during the year 1903-4. *h* Exclusive of Broome, which was not proclaimed a Municipality at the date of the Census. *i*. Exclusive of Broome, which was only proclaimed a Municipality on the 30th September, 1904.

Returns relating to Municipalities for the Year ended 31st October, 1904—continued.

* The monthly barometer mean readings since 1885 are taken from the 9 a.m. and 3 p.m. daily readings. Prior to that, the mean of the noon readings was used as the monthly mean. † The thermometers were moved in August, 1885, to their present position in the Botanic Gardens, and as they have apparently given a slightly lower record since then, the means have been taken from 1886 only.

PART XII.—MISCELLANEOUS.

No. 5—*Rainfall in Western Australia during 1904.*

With averages (to the end of 1904) for all stations having at least five years' record. 100 Points=1 inch.

NOTE.—The stations are grouped into districts, and these are subdivided into square degrees, which are figured according to the latitude and longitude of the N.W. corner of each square, the first two figures representing the latitude and the last two the longitude, less 100°. Thus Perth is in the square 3115, showing that its latitude is 31° odd minutes, and its longitude 115° odd minutes. The mean rainfall for each square degree is adopted from all the stations situated in that square having complete records for 1904. The average is taken for all years up to and including 1904.

Square.	Locality.	Total for 1904.		Mean for Square Degree during 1904.	Average to 31st December, 1904, for Square Degree.	No. of Years for Average.
